EXPERIENCE

IoT & Embedded Systems Intern

Pragna Solutions – IoT VOX MOVE (Online)

February 2025 – May 2025

- Worked on an IoT-based **voice-controlled smart wheelchair** project.
- Implemented system logic using **C programming**.
- Integrated **Google Assistant** with **Sinric Pro API** for voice command execution.
- Gained experience in **debugging**, **system integration**, and **logical problem-solving**.

SKILLS

- **Programming Languages:** Python, C
- **Web Technologies:** HTML5, CSS3, JavaScript, Bootstrap
- **Backend Frameworks:** Django
- **Database:** SQL
- **Tools:** Git, GitHub (basic)
- **Soft Skills:** Problem Solving, Quick Learner, Teamwork

SUMMARY

Dedicated and quick-learning **fresher software developer** with strong fundamentals in **Python and C**, currently developing skills in **Full Stack Python Development**. Familiar with building basic **web applications** using **Django, HTML, CSS, JavaScript, and SQL**. Interested in **backend development**, **problem-solving**, and applying technical knowledge in **internship**.

EDUCATION

Bachelor of Science (B.Sc) – Mathematics, Physics, Computer Science

Gayatri Vidya Parishad
College for Degree & PG
Courses (A)
2022 – 2025

PROJECTS

Timed Python Quiz Application | Python

- Developed an interactive **command-line quiz application** using Python
- Implemented **time-based response validation** with `time.perf_counter()`
- Applied **functions**, **exception handling**, **match-case**, and **input validation**
- Strengthened Python fundamentals, debugging, and logical thinking
- **View the code on GitHub:**
<https://github.com/vanasetti-charan/python-projects> .

CERTIFICATIONS

- Python for Developers – Core Concepts
- C Language Certification
- SQL Fundamentals Masterclass

Career Interest:

“Open to internship and full-time opportunities in software development, programming, and web technologies.”
